

ANTIFEN PLUS LNAA

**FOOD FOR SPECIAL MEDICAL PURPOSES
FOR THE DIETARY MANAGEMENT OF PHENYLKETONURIA AND HYPERPHENYLALANINEMIA.**

FROM 3 YEARS OF AGE.

Net weight: 440 g e (4 x 110 g)

COMPOSITION: Stabilizers: E460i, E1201; L-tyrosine, L-leucine, L-valine, L-isoleucine, calcium glycerophosphate, L-threonine, L-lysine HCl; glazing agents: E904, E464, E472a, E1521; L-tryptophan, L-aspartic acid, glycine, L-histidine, potassium citrate, L-methionine, magnesium citrate, L-arginine, L-proline, L-glutamine, L-alanine, L-serine, choline bitartrate, calcium citrate, anti-caking agent: E553b; zinc gluconate, L-cystine, vitamin C (L-ascorbic acid), inositol, ferrous bisglycinate, taurine, L-carnitine, vitamin E (DL-alpha-tocopheryl acetate), niacin, manganese gluconate, vitamin D (cholecalciferol), copper gluconate, vitamin B5 (calcium D-pantothenate), vitamin A (retinyl acetate), vitamin B6 (pyridoxine HCl), vitamin B2 (riboflavin), vitamin K (phylloquinone), vitamin B1 (thiamine HCl), sodium molybdate, vitamin B12 (cyanocobalamin), chromium picolinate, folic acid, potassium iodide, sodium selenite, biotin.

CHARACTERISTICS: Antifen Plus LNAA is a food for special medical purposes containing amino acids (more than 70 % LNAA), vitamins, minerals and trace elements in the form of coated granules with prolonged-release technology.

INDICATIONS: For the dietary management of phenylketonuria and hyperphenylalaninemia from 3 years of age.

INSTRUCTIONS: The daily dose must be determined by a physician based on age, body weight and individual tolerance of phenylalanine. 1 scoop contains approximately 8 g of granules (equivalent to 5 g protein equivalent); the cap contains approximately 11 g of granules (7 g protein equivalent). Granules are odorless and tasteless: take the prescribed dose with a drink for easier swallowing, without chewing or dissolving.

IMPORTANT NOTICE: Use under medical supervision. Not suitable as a sole source of nutrition. May pose a health risk if consumed by persons who do not have the condition for which it is intended. Not for parenteral use. Suitable from 3 years of age.
